SHAKESPEARE'S COMPLETE WORKS.

NEW AND ELEGANT EDITION.

EDITED BY RICHARD GRANT WHITE.

TO BE PUBLISHED BY SUBSCRIPTION

LITTLE, BROWN & Co.,
No. 112 WASHINGTON STREET, BOSTON.
IN TWELVE VOLUMES, Post, Svo.
The labors of Mr. White in the wide field of Shakespearian research and criticism are everywhere known and appreciated by the students and lovers of the Great Dramatict. The recent publication of his "Shakespeare's Scholar," which presented views taken by the author during several years of careful and dilligent study, was halled with delight and sa infaction on but sides of the Atlandic, and secured for him the gratitude of every intelligent reader of Shakespeare who desired to see the text in its original purity, relieved of the mass of superfluous annotations, explanations and attempted improvements by which it had been incumbered, if not obscured, by most of the previous commentators.

mentators.

This work may be regarded as the precursor of the forthcoming diltino 6 Shak-speare's Complete Works, and as indicating the splitt in which it was undertaken, and, in some degree, its pecuapitit in which it was undertaken, and, in some degree, its pecuapitit in which it was undertaken, and, in some degree, its pecuapitit in which it was undertaken, and, in some degree, its pecuapitit in which it was undertaken, and, in some degree, its pecuapitit in which it was undertaken, and it was undertaken.

harities.

The chief characteristics of this edition are as follows:

1. Adhesion to the text of the authentic bits of 1623, excepting where that is manifestly corrupt or defective.

11. The restors into many passages from the original text, which the coitor shows to have been carelessly assumed to be corrupt in preceding modern editions.

111. The successful emendation of many passages which are undeniably corrupt, and which have brilled the efforts of previous editors and commentators.

112. The discovery and correction of many corruptions of the text, which have hillients been undetected.

V. A. "frugal selection from the labors of all" the commentators.

V. A "frugal selection from the labors of all" the commenta-via.

VII. The adaptation of the notes—whether textual, explanatory or antiquarian—to the capacity, not of professed men of letters on the one hand, or of dail and uneducated persons on the other, but of the great mass of Shahespeare's intelligent readers.

VII. The careful preservation of the rhythm of Shakespeare's proce, as well as verse, according to the contractions in use at his time, or peculiar to him, as they are given in the old editions, though almost universally neglected in those of modern dats. VIII. The examination, and, as far as possible, the determina-tion, of the old modes of pronunciation, which in numberies instances affect the rhythm, and in many the sense of the text. IX. The crediting of every emendation, explanation or illustra-tive quotation, to the editor or commentator who first brought it forward—thus succincity giving the reader the history of every disputed passage, and so of the viciositudes of the text. X. The separation of the text and the notes—the latter being placed at the end of each p'sy, with reference to act, scene and page.
